

MANNOL Defroster 9908

MANNOL Defroster ensures an effective and quick ice thawing on windshields of vehicles, simplifies its removal and prevents re-forming of ice. It provides a clear visibility for the driver and increases traffic safety. Prolonged heating of the interior in order to thaw car windows is no longer necessary. This product can also be applied to defrost headlights, locks, automobile doors, boot lids and wiper blades.

Remove loose snow and ice from glass. Spray on iced surfaces and let soak up. Dont use Icesscraper - ice dissolves quickly.
