

MANNOL Diesel Jet Cleaner 9956

Fast and efficient nozzle cleaner for all types of diesel engines. Lubricates and protects the injection system from corrosion. Increases engine life and fuel efficiency. Eliminates sticking of nozzle needles, reduces plunger pair wear, facilitates starting and increases power by improving fuel atomization.

Compatible with all diesel engines with and without DPF.

Application: Add to the tank before refueling in the ratio of 400 ml per 75 l of fuel.
