

## MANNOL Silicone Spray 9963

### MANNOL Silicone Spray

Silicone-based water-resistant protective agent for metal, rubber and plastic surfaces. Resistant transparent silicone film repels moisture, reduces friction, prevents creaking noise, adfreezing and corrosion. Restores the elasticity of rubber and plastic parts and protects them from dryout and cracking. Free of mineral oils and fats.

Application: Shake well and sprav on a clean surface from the distance of about 10-15 cm. If necessary, wipe the surface with a dry cloth.
