

MANNOL Super Diesel Cetane Plus 9955

Special diesel fuel additive that improves engine performance, ensures smooth idling and provides additional lubrication of the fuel system key components. Reduces engine noise, fuel consumption, and toxic exhaust gases. Effectively cleans the combustion chamber, the valves and piston heads from combustion residues. Recommended for all diesel and turbo diesel engines.

Application: Add to the fuel tank before filling at ratio 1:300 (200ml per 60 litres of fuel).
